

Bishop's Tachbrook Pupil Sports grant expenditure: Report to parents: 2016-2017

Overview of the school

Number of pupils and Sports Grant received	
Total number of pupils on roll	207
Amount of Sports Grant received per pupil	£43
Total amount of Sports Grant received	£8,895

Nature of Provision: 2016/17

A continuing whole school focus on developing the competitive sports provision for all alongside increased uptake of sports participation for ALL pupils so that there is outstanding provision for all (see Learning Improvement Plan) through:

- Continuing to buy into a local Sports Partnership to allow more opportunities for competitive sports eg: rowing, indoor athletics, 5 a side girls' football, handball, tag rugby and biathlon.
- Provision of new lockers for KS1 pupils so that changing for Sport clubs and lessons is much quicker and no time is spent looking for lost kit; more time is spent actively in PE.
- Provision of free transport to the overwhelming majority of competitions for pupils.
- Using specialist Sports Coaching to teach groups of pupils peer leadership skills to foster active lifestyles through energetic engagement of most pupils in play at playtimes.
- Sports specialists to give intensive expert coaching to a small group of gifted and talented pupils opportunity to build on their tactical and teamwork skills through handball coaching and subsequent inter school competition with other local groups of talented pupils.
- Subsidising School Hoodies for all pupils who compete for the school to raise the status of competitive Sports, the self-esteem of pupils and the profile of sport throughout the school.
- Developing further the range of facilities on site including a new high jump pit and refurbishing the long jump.
- Provision of Astro turf in areas of the playground subject to excessive wear and tear to allow its all year use- for example repairs to the running/walking track.
- Further developing links with a local Table Tennis League Club (Lillington FC TT) to develop this sport in school, encouraging and promoting self-esteem for pupils.

Focus of Sports Grant Spending 2016-'17

Objectives in spending the Sports Grant:

- Improve rates of participation in sport so that the overwhelming majority of Key Stage 2 pupils continue to have opportunities for and experience of taking part in a wide range of competitive sport by Y6.
- Improve rates of participation in physical activity at every playtime and lunchtime through peer coaching and ensuring our equipment and facilities are constantly improved, extended and maintained to maximise their use.
- To improve the proportion of pupils in both Key Stages who regularly take part in sport throughout school through provision of Sports coaching every term four days per week after school.
- To increase the range of opportunities for all pupils taking part in a wider variety of Sport to engage more pupils.
- To ensure the most able sporting pupils receive specific coaching for sports such as Tag Rugby and Handball so they can compete inter school at this level in these as well as in other sports.
- To continue to improve our involvement in sport by training pupils as peer coaches in playground games so that more KS1 pupils are active and energetic at lunch and playtimes.

Measuring the impact of Sports Grant Spending 2016-2017

Outcomes to date:

- **Every Y6 pupil (2016-2017) took part in Inter School competitive sports last year in Football, Netball, Rowing, Athletics, Cross-Country, Handball or a combination. The culture of sporting success breeds an expectation of competition and Y6 are eager to represent the school at inter school level and wear the distinctive orange school kit and take pride in owning their own 'hoodie' for representing the school.**
- **Competitive regular League Inter School Football very firmly established.**
- **Girls' 5 a side football Inter School competition undertaken (2016); this squad had never played any competitive football before and as a result more girls were playing or practising football at playtimes than previously.**

- **Competitive Cross-Country training firmly established for Year 5 and 6, including pupils who had no prior experience of competitive inter school sport. Pupils are training for inter school rowing which is now in its third year.**
- **Table Tennis now available in play/ lunch times so that pupils who do not opt to play other active games may take part in this sport.**
- **Local League Table Tennis Club have made a new link with our school and two pupils have regularly played at a competitive level.**

NB: The spending and outcomes above are in addition to our existing Sports provision which has been developed over the past 5 years and already includes opportunities for regular (4x pw) after school sports clubs including Dance, Football, Multi Sports and Netball. In 2016 our Football Team were the runners up in the local schools league, our Cross Country and Athletics Teams secured significant places in the County Competitions.

Updated Oct 2017

NB At this stage of the academic year there is plenty of sport ahead of us and impact of spending for 2017-2018 cannot yet be measured, though the evidence is already clear that spending on playground markings from the 2017-2018 budget has had a significant effect on activity levels at playtimes.
